INTERNET POLICY.

1) Policy, writing and review:

- *Our Internet Policy has been written by the school, building on the Durham NGfL policy and government guidance. It has been agreed by the senior management and approved by governors. It will be reviewed annually.*

Created by :- Mr. R. Ward

Date: July 2012

Approved by the Governing Body

2) Importance of the Internet in School:

- *The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and business administration systems.*
- *Internet use is a part of the statutory curriculum and a necessary tool for staff and pupils.*
- *Internet access is an entitlement for students who show a responsible and mature approach to its use.*
- *The Internet is an essential element in 21st century life for education, business and social interaction. The school has a duty to provide students with quality Internet access as part of their learning experience.*

3) How does the Internet benefit education?

Benefits of using the Internet in education include:

- *a fast, efficient and varied means of communication;*
- *access to world-wide educational resources including museums and art galleries;*
- *educational and cultural exchanges between pupils world-wide;*
- *cultural, vocational, social and leisure use in libraries, clubs and at home;*
- *access to experts in many fields for pupils and staff;*
- *staff professional development through access to national developments, educational materials and good curriculum practice;*
- *communication with support services, professional associations and colleagues;*
- *improved access to technical support including remote management of networks;*
- *exchange of curriculum and administration data with the LEA and DfES.*
- *mentoring of pupils and provide peer support for them and teachers*

4) How will Internet use enhance learning?

- *The school Internet access is designed expressly for pupil use and includes filtering appropriate to the age of pupils.*
- *Pupils will be taught what Internet use is acceptable and what is not, and given clear objectives for Internet use.*
- *Internet access will be planned to enrich and extend learning activities. Access levels will be reviewed to reflect the curriculum requirements and age of pupils.*
- *Staff should guide pupils in on-line activities that will support the learning outcomes planned for the pupils' age and maturity.*
- *Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.*

5) How will pupils learn to evaluate Internet content?

- *If staff or pupils discover unsuitable sites, the URL (address) and content must be reported to the Internet Service Provider via the ICT Co-ordinator or headteacher.*
- *The school will endeavour to ensure that the use of Internet derived materials by staff and by pupils complies with copyright law.*
- *Pupils should be taught to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.*
- *Pupils will be taught to acknowledge the source of information used and to respect copyright when using Internet material in their own work.*
- *Training should be available to staff in the evaluation of Web materials and methods of developing students' critical attitudes.*
- *Older pupils should be taught how web sites are ordered when using search engines and how to avoid the bias and manipulation that is possible in the way search results are presented.*

6) How will e-mail be managed?

The durhamlea.org.uk email system gives anonymity to pupils through the email address they are given. The pupil's first name and initial letter of their surname are used with a number; e.g. James.b6001@durhamlea.org.uk

This means the pupil's full name is not available, nor is the location of their school. This system combines the best of practice in pupil email account names. The service is also filtered.

- *Pupils may only use durhamlea.org.uk e-mail accounts on the school system.*
- *Pupils must immediately tell a teacher if they receive offensive e-mail.*
- *Pupils must not reveal details of themselves or others in e-mail communication, such as address or telephone number, or arrange to meet anyone.*
- *Whole-class or group e-mail addresses can be requested for any age group as well as individual email accounts*
- *Access in school to external personal e-mail accounts may be blocked.*
- *Excessive social e-mail use can interfere with learning and may be restricted.*
- *E-mail sent to an external organisation should be written carefully and authorised before sending, in the same way as a letter written on school headed paper.*
- *The forwarding of chain letters is not permitted.*

7) How should Website content be managed?

- *The points of contact on the Website are the school address, school e-mail and telephone number. Staff or pupils' home or personal information will not be published.*
- *Website photographs that include pupils will be selected carefully and will not name individual children.*
- *Pupils' full names will not be used anywhere on the Web site, particularly in association with photographs.*
- *Written permission from parents or carers will be obtained before photographs of pupils are published on the school Web site.*
- *Mr. Ward will take overall editorial responsibility and ensure that content is accurate and appropriate.*
- *The Website complies with the school's guidelines for publications.*
- *The copyright of all material must be held by the school, or be attributed to the owner where permission to reproduce has been obtained.*
- *The school will scan regularly (4 times per year) their own web site to check links that have been made into their own sites and to remove links from potentially dangerous sources. (Note: since this school uses the ITSS Web Site SLA this will be done by ITSS)*

8) Can Chat be made safe?

- *Pupils will not be allowed access to public or unregulated chat rooms.*
- *Pupils will be taught of the dangers of chat rooms so that they understand the risks they may face if they access these from home.*
- *They will be taught to safely use the "chatter box" sections of the pupil website where only their own class members will have access.*
- *Class teachers will receive daily emails with all new communications to ensure content is appropriate.*

9) How can emerging Internet applications be managed?

- *Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.*
- *Mobile phones, Mp3 players or any other technologies are not allowed in school.*

10) How will Internet access be authorised?

- *E-safety training will be carried out in school, children will be regularly reminded of how to stay safe.*
- *At Key Stage 1, access to the Internet will be by adult demonstration with directly supervised access to specific, approved on-line materials.*
- *At Key Stage 2, access to the internet will increase but will remain supervised and for the task set by the teacher.*
- *Parents will be informed that pupils will be provided with supervised internet access – see letter included in the appendix.*

11) How will the risks be assessed?

- *In common with other media such as magazines, books and video, some material available via the Internet is unsuitable for pupils. The school will take all reasonable precautions to ensure that users access only appropriate material. However, due to the international scale and linked nature of Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer. Neither the school nor DCC can accept liability for the material accessed, or any consequences of Internet access.*
- *The use of computer systems without permission or for inappropriate purposes could constitute a criminal offence under the Computer Misuse Act 1990.*
- *Methods to identify, assess and minimise risks will be reviewed regularly in conjunction with DCC.*
- *The headteacher will ensure that the Internet policy is implemented and compliance with the policy monitored.*

12) How will filtering be managed?

The technical strategies being developed to restrict access to inappropriate material fall into several overlapping types (commonly described as filtering):

- **Blocking strategies** prevent access to a list of unsuitable sites or newsgroups. Maintenance of the blocking list is a major task as new sites appear every day.
- **A walled-garden or allow list** provides access only to a list of approved sites. An allow list will inevitably restrict pupils' access to a narrow range of information.
- **Dynamic filtering** examines the content of Web pages or e-mail for unsuitable words. Filtering of outgoing information such as Web searches is also required.
- **Rating systems** give each Web page a rating for sexual, profane, violent or other unacceptable content. Web browsers can be set to reject these pages.
- **Monitoring** records Internet sites visited by individual user. Access to a site forbidden by the filtering policy will result in a report. It is also possible to remove access automatically after a set number of policy violations.

Despite careful design, filtering systems cannot be completely effective due to the speed of change of Web content. Filtering may be performed by the ISP, by the LEA, at school-level or by any combination. School-level systems require considerable management to maintain effectiveness and place huge responsibility on the school if they are the only systems in place.

Careful monitoring and management of all filtering systems will be required. It is important that the school establishes the filtering criteria rather than simply accepting filtering default settings.

- *The school will work in partnership with parents, the LEA, DfES and the Internet Service Provider to ensure systems to protect pupils are reviewed and improved.*
- *If staff or pupils discover unsuitable sites, the URL (address) and content must be reported to the Internet Service Provider via the ICT Co-ordinator.*
- *Senior staff will ensure that regular checks are made to ensure that the filtering methods selected are appropriate, effective and reasonable.*
- *Any material that the school believes is illegal must be referred to the Internet Watch Foundation (please see references given in support document).*
- *Filtering strategies will be selected by the school, in discussion with the filtering provider where appropriate. The filtering strategy will be selected to suit the age and curriculum requirements of the pupil.*

13) How will the policy be introduced to pupils?

- *Instruction in responsible and safe use should precede Internet access.*
- *A module on responsible Internet use will be included in the PSHE programme covering both school and home use.*

14) How will staff be consulted?

- All staff must accept the terms of the '**Responsible Internet Use**' statement before using any Internet resource in school.
- All staff including teachers, supply staff, classroom assistants and support staff, will be provided with the School Internet Policy, and Internet and E-mail Code of Practice and their importance explained.
- Staff should be aware that Internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.
- The monitoring of Internet use is a sensitive matter. Staff who operate monitoring procedures should be supervised by senior management.
- Staff development in safe and responsible Internet use, and on the school Internet policy will be provided as required.
- Staff will sign the Document Log to indicate they have received, noted and understand the arrangement for Internet and e-mail use and access.

15) How will ICT system security be maintained?

- *The school ICT systems will be reviewed regularly with regard to security.*
- *Virus protection will be installed and updated regularly, in line with DCC.*
- *Security strategies will be discussed with the LEA, particularly where a wide area network connection is being planned.*
- *Personal data sent over the Internet will be encrypted or otherwise secured.*
- *Use of portable media such as floppy disks, memory sticks and CD-ROMs will be reviewed. Portable media may not be brought into school without specific permission and a virus check.*
- *Unapproved system utilities and executable files will not be allowed in pupils' work areas..*
- *Files held on the school's network will be regularly checked.*

16) How will complaints regarding Internet use be handled?

- *Responsibility for handling incidents will be responsibility of the HT.*
- *Any complaint about staff misuse must be referred to the headteacher.*
- *Pupils and parents will be informed of the complaints procedure.*
- *Parents and pupils will need to work in partnership with staff to resolve issues.*
- *There may be occasions when the police or child protection staff must be contacted. Early contact could be made to establish the legal position and discuss strategies.*
 - *Sanctions available include:*
 - *interview/counselling by appointed staff;*
 - *informing parents or carers;*
 - *removal of Internet or computer access for a period, which could ultimately prevent access to files held on the system, including examination coursework.*
 - *other sanctions as defined in school disciplinary system.*

17) How will parents' support be enlisted?

- *Parents' attention will be drawn to the School Internet Policy in newsletters, the school brochure and on the school Website.*
- *Internet issues will be handled sensitively to inform parents without undue alarm.*
- *A partnership approach with parents will be encouraged. This could include demonstrations, practical sessions and suggestions for safe Internet use at home.*
- *Advice on filtering systems and educational and leisure activities that include responsible use of the Internet will be made available to parents.*
- *Interested parents will be referred to organisations such as PIN, Parents Online and NCH Action for Children (URLs in reference section).*

This policy is based on one developed by Kent County Council, whose original copyright is acknowledged, and whose permission to use their materials is also graciously acknowledged by Durham County Council and Esh C of E Primary School.

Making a difference where you live

Esh C.E. Primary School

Responsible Internet Use

These rules help us to be fair to others and keep everyone safe.

- **I will ask permission before using the Internet.**
- **I will use only my own network login and password, which is secret.**
- **I will only look at or delete my own files.**
- **I understand that I must not bring software or disks into school without permission.**
- **I will only e-mail people I know, or my teacher has approved.**
- **The messages I send will be polite and sensible.**
- **I understand that I must never give my home address or phone number, or arrange to meet someone.**
- **I will ask for permission before opening an e-mail or an e-mail attachment sent by someone I do not know.**
- **I will not use Internet chat.**
- **I see anything I am unhappy with or I receive messages I do not like, I will tell a teacher immediately.**
- **I understand that the school may check my computer files and the Internet sites I visit.**
- **I understand that if I deliberately break these rules, I may not be allowed to use the Internet or computers.**

The school may exercise its right to monitor the use of the school's computer systems, including access to web-sites, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school's computer system is or may be taking place, or the system is or may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

Dear Parents

Responsible Internet Use

As part of your child's curriculum and the development of ICT skills, Our Primary School is providing supervised access to the Internet. We believe that the effective use of the World Wide Web and E-mail is worthwhile and is an essential skill for children as they grow up in the modern world. Please would you read the attached Rules for Responsible Internet Use and sign and return the consent form so that your child may use Internet at school.

Although there are concerns about pupils having access to undesirable materials, we have taken positive steps to reduce this risk in school. Our school Internet provider operates a filtering system that restricts access to inappropriate materials.

Whilst every endeavour is made to ensure that suitable restrictions are placed on the ability of children to access inappropriate materials, the School cannot be held responsible for the nature or content of materials accessed through the Internet. The School will not be liable for any damages arising from your child's use of the Internet facilities.

Should you wish to discuss any aspect of Internet use please telephone me to arrange an appointment.

Yours sincerely

Consent Form

Esh C.E. (Aided) Primary School. **Responsible Internet Use**

Please complete, sign and return to the school secretary

Pupil:

Form:

Pupil's Agreement

I have read and I understand the school Rules for Responsible Internet Use. I will use the computer system and Internet in a responsible way and obey these rules at all times.

Signed:

Date:

Parent's Consent for Internet Access

I have read and understood the school rules for responsible Internet use and give permission for my son / daughter to access the Internet. I understand that the school will take all reasonable precautions to ensure pupils cannot access inappropriate materials. I understand that the school cannot be held responsible for the nature or content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

Signed:

Date:

Please print name:

Parent's Consent for Web Publication of Work and Photographs

I agree that, if selected, my son/daughter's work may be published on the school Web site. I also agree that photographs that include my son/daughter may be published subject to the school rules that photographs will not be labelled with children's names.
